We need a new kind of governor! A governor who can work with the legislature to create and implement solutions that benefit all of Hawaii's people. A governor who understands that the environment and the host culture, is the economy. To insure long term growth and health of the economy we must invest and promote the host culture and strive to protect our forests, parks and beaches. As governor I will work towards making decisions that are based on what is good for both residents and the tourism industry. The military is important to Hawaii's economy, and as with any other sector of the economy, we have to be careful to make sure that the benefits of any particular project outweigh the cost's to Hawaii's people. In 1993, the federal government recognized the illegality of the Overthrow. While we cannot turn the clock back to 1893, we also cannot turn our backs on trying to address this wrong. The people of Hawaii, Hawaiians and non-Hawaiians alike, understand the need for a kind of self-governance for Hawaiians and I am confident that, together, we can find the right solution. Too many of our children, Hawaiians and non-Hawaiians, have to leave the islands because they can't afford a place to rent, much less buy. Hawaii is 49th in the nation in home ownership. Is this the future that we want for our children and grandchildren? I say no!
